

Ministerie van Infrastructuur
en Waterstaat

Designing the Dutch Spatial Future

Noud Hooyman,
Ministry of the Interior

Rich tradition

- Struggle against water
- Densely populated country
- Spatial quality

Social challenges

- Towards a sustainable and competitive economy
- Towards a climate-neutral and climate-proof society
- Towards a future-proof and feasible living and working environment
- Towards a valuable living environment

Simple is better

- Fewer rules, more vision
- Local custom work
- Inviting

Geodesign

- Digital Network Environment and Planning Act
- Building Information Models
- Geodesign
